Twenty five (25) researcher/academicians had presented their research papers in this academic session. The first paper was presented by Dr. Nibedita Paul, Professor, Dept. of Social Work, University of Science & Technology, Meghalay and the title of her paper was on “Socio-Economic Vicinity of Dimasa Tribe of South Assam”. This paper critically examines initiatives for greater participation in socio-economic segment of tribal communities of India, arguing that current policy does not effectively enough to facilitate greater participation and may, in fact, go against the stated principle of ensuring greater equity. The paper relies on fieldwork-based study to support arguments for the need to be culturally sensitive in making appropriate provisions for the socio-economic activity of scheduled tribes in India. The tribes of North Eastern Regions of India attracted the attention of sociologists, social anthropologists and administrators in order to understand the fabric of their socio-cultural life. But there are very few studies that reveal the process of modernization and development among the tribes of N. E. Region. In spite of primitive technology and poor economic condition the North East India is rich in spinning, dyeing and weaving which are primarily controlled by womenfolk. In Assam, the Cachari (Dimasa/Barman/Sonowal) are expert in rearing indigenous variety of cocoon, which is used for manufacturing of silk/cotton cloths. It is very clear that North Eastern Region has a very high potential for the development of textile

entrepreneurship as most of the tribal women already have weaving skill. The need is only to provide necessary technical and financial support and marketing facilities

Dr. Surendra Kumar, Associate Professor, University of Delhi during Technical Session

Atrayee Kashyap, Research Scholar, Dept. of Cultural and Creative Studies North- Eastern Hill University, Shillong, Meghalaya has presented her paper on Exploring the Origin and the Folk Musical Tradition of the Deoris residing in Assam. The Deoris belong to the Sino-Tibetan family of Mongoloid stock. They are considered to be one of the communities found in Assam and some parts of Arunachal Pradesh in North- East India. The word *Deori* means the offspring of Gods and Goddesses. The Deori culture is facing danger from the clutches of globalization and striving hard to flourish. Such endangered culture so sprung -up by the nature thousand years past now deserve preservation and propagation by the government itself from being extinct. The paper is a humble endeavour to deal with the notions of authenticity, locality, vitality of oral culture and cultural identity of the Deori Community, in the realm of folklore.
